Please Note: All of the above Seminars and Shooting Demos/Sessions are FREE of charge, but do require advance online registration (free). We ask for this to help us determine popularity of each event and to ensure high quality by limiting enrollment.

Online registration for all free events is on a first-come-first-serve basis. Register early to guarantee your spot in the event(s) you'd like to attend.

If you're attending a shooting demo session make sure to bring your camera. Time permitting you'll be able to shoot some images yourself.

Seminars will be between about 45 minutes in length each, with a question period immediately following the presentation.

Looking forward to seeing you all on January 8th, 2011!

Creative On- and Off- Camera Flash (w/ Hannah Guy):

Getting started with using your flash? Looking for some creative inspirations, tips and tricks? Then join Hannah Guy for this fun and informative presentation and slideshow centered all around creative and effective use of on- and off- camera flash.

Digital Camera Q and A Seminar (w/Hannah Guy):

Ask the Pro anything you always wanted to know about your camera, lenses, or anything else related to your digital photography. This is an open forum so please come prepared with your (photography only) questions. In this seminar, YOU decide what gets covered and talked about.

Sports Photography (w/ Tim Tallevi):

In this session, Tim Tallevi shares his passion and skills photographing sports and action. He'll show a large slideshow of his images and explain valuable techniques, both camera and lighting, for capturing captivating sport and action shots.

Wedding Photography (w/ Tim and Karen Tallevi):

Join critically acclaimed wedding photography team Tim and Karen Tallevi (from Tallevi Studios) for this fun and informative session all about wedding photography. Tim and Karen will show samples of their work, share experiences and talk about the photography as well as business skills required to be a successful wedding photographer.

Sports Photography (w/ Tim Tallevi):

In this session, Tim Tallevi shares his passion and skills photographing sports and action. He'll show a large slideshow of his images and explain valuable techniques, both camera and lighting, for capturing captivating sport and action shots.

Long Exposure Photography (David Ellingsen and Marc Koegel):

Join David and Marc as they show you how they achieve their award-winning images using long exposure techniques. They each will use an images from their portfolio, and show you how they did it step-by-step, from capture to final look. Camera techniques, as well as post-production techniques, including color to black and white conversions, will all be discussed.

Artistic iPhone Photography (w/Marc Koegel):

The best camera is the one you always have with you! Get tips and tricks on how to get the most out of your iPhone camera, including which photography apps work the best. View a slideshow of inspirational iPhone photography to get your creative juices flowing...

Fine-Art Printing Demo and Q and Q Session (w/ Marc Koegel):

In this session, Marc gives valuable tips for ink-jet printing. Watch as he takes one of his award-winning images all the way to the final print. Lots of time will be dedicated to answering your questions related to all things printing, including post production techniques, color management, printer selections, paper type, etc.

Street Photography (w/ Aura McKay):

Join renowned instructor Aura McKay as she focuses on the urban environment and on location street photography for travel, photo essays, fine art and just plain photographic fun! Find out how to get that creative edge and the shots you're looking.

Photographing the Nude and Figure (w/ Aura McKay):

Using examples from her own work, emerging icons and photographic masters, Aura will talk about how to explore the body as landscape, shape and form.

Macro Photography (w/ Kaj Svensson):

You don't need to leave your backyard to find interesting Macro shots. Kaj will give a quick introduction on macro photography equipment, methods and post production.

Panoramic Photography (w/ Kaj Svensson):

Join Kaj Svensson as you explore panoramic photography. kaj will talk about aspects of camera, lenses, film, digital capture, composition and preconceiving images in different ratio aspects and stitching multiple images.

Marketing Tips for Photographers (w/ David Ellingsen):

Join accomplished local commercial photographer David Ellingsen as he talks effective marketing strategies that any photographer can use. David will talk about his career and what marketing he has personally used and succeeded with.

Demo Shoot: One-Light Only Lighting (w/ Syx Langmann):

Dont forget your cameras! Syx will show you, hands-on, how to effectively use just one light for photographing people. This session is meant to inspire, and show you many creative ways of how to get great shots with a minimum amount of equipment. Syx will use a model for hands-on demos. Time permitting, participants will have a chance to shoot as well.

Photographic Projects and Inspiration (w/ Syx Langmann):

Looking to get inspired? Stuck in a photographic rut? Join Syx Langmann as he talks about how to re-discover your passion for photography by finding exciting photographic projects for yourself. See a slideshow of his ongoing 'Once I was a camera' series.

Adobe Lightroom: Organize and Develop (w/ Syx Langmann):

Join Syx Langmann as he shares tips and tricks for organizing your image database using Adobe Lightroom 3.0 software. In addition to organization, Syx will introduce the Develop Module which will empower you to adjust and work with your images with ease and speed.

Demo Shoot: Take better Pictures of People (w/ Dan Kozma):

Join Dan Kozma as he talks and demonstrates how to take better pictures by effectively communicate and relate to your subjects. Many photographers, despite being proficient with their gear and lighting still fall short of taking good images due to poor communication skills and failure to relate to their subjects. This demonstration will cover how to get great images of people by effectively communicating with them. Emphasize is placed on working with 'regular' folks, i.e. people who are not professional models.

Demo Shoot: Fashion Shoot (w/ Wayne Hoecherl and Dan Kozma):

Join Wayne Hoecherl and Dan Kozma and watch as they demonstrate a full scale fashion shoot. See how to work with make-up artists, complex lighting setups, and an amazing model. This demonstration will take place in our large studio space using the latest lighting equipment from Profoto. Time permitting students will be able to shoot at the end of the demonstration, so bring your camera just in case.

Demo Shoot: Creative Lighting For Editorial Portraiture (w/ Wayne Hoecherl and Dan Kozma):

Join Wayne Hoecherl and Dan Kozma and watch as they demonstrate 3 simple yet creative and effective lighting setups for editorial portraiture. This demonstration will take place in our small studio space and in the kitchen illustrating how a great image can be taken just about anywhere. Time permitting students will be able to shoot at the end of the demonstration, so bring your camera just in case.

Fashion and Creative Lighting (w/ Wayne Hoecherl):

Join Wayne Hoecherl as he talks about how to effectively and creatively use lighting to take your images to the next level. Wayne will show a slideshow of images captured in courses and workshops he teaches at VPW and explain in detail how the shots were conceptualized, lit and shot. Wayne is a true Master of lighting, so be prepared to be inspired.

Demo Shoot: Small Strobes Only (w/ Christopher Morris):

Join Christopher Morris as he demonstrates how to effectively use small camera flashes to create stunning and creative images. Christopher will explain each step and decision he makes, and you're encouraged to ask as many questions as you can. Christopher will be working with a model for this session.

Small Strobes Q and A Session (w/ Christopher Morris):

Do you have questions about using small camera flashes. You've come to the right place! Join Christopher Morris as he'll entertain your questions as they pertain to small strobes. This is an open forum so please come prepared with your questions. In this seminar, YOU decide what gets covered and talked about.
